2005 PERA Engine Application & Identification Catalog

The coveted PERA Engine Application & Identification Catalog will continue to have all the features that have been requested over the years such as:

- Crank Kit listings
- Bore size for that quick identification
- Application headers on every page for easy use
- Industry recognized numbering system

This will also be the first time the catalog will be generated through the EngineDataSource.com software providing the best component casting identification available in the automotive remanufacturing industry.

Price: \$25 each

EDS is available for 1/2 PRICE for 1 Year When Purchased Before August 31, 2010
